CDNetworks

CDNetworks Cloud MSP

Full Stack & Full Lifecycle
Cloud Management Service

CDNetworks Cloud MSP is dedicated to providing full-stack and full-lifecycle cloud management services that encompass cloud strategy consulting, cloud migration and deployment, cloud-native delivery, and cloud operation and maintenance hosting. As a certified partner of global mainstream cloud vendors, we assist enterprises in achieving maximum cost-control and optimization of cloud services, continually unleashing productivity on the cloud, and spearheading digital transformation in the era of multi-cloud.

Four Core Competencies Help Enterprises Travel Smoothly In the Cloud

Full-stack Cloud Management Service

Create a closed-loop service on the cloud, provide overall service capabilities from consulting to implementation, maximize the utilization of cloud resources, and greatly reduce costs.

Comprehensive Product Ecology Matrix

The two platforms realize operation and maintenance management and cost management; based on the global 28000+ node resources, a safe and compliant, high-speed and stable cloud connection is built.

Industry-leading Technical Capabilities

Possess multiple certifications such as system architect, DevOps , big data expert, etc., covering public / private cloud, hybrid cloud, security, database and other professional fields.

Profound Industry Landing Experience

Deeply cultivated in the field of cloud services for many years, with a wealth of practical experience in cloud transformation, covering finance, games, e-commerce, new energy, manufacturing, government agencies and other fields.

20+ years
Experience in Corporate Services

500+

CDNetworks Full-stack Cloud Service Panorama

Solution

Business Migration to the Cloud	Cloud Native Business Construction	Cost Optimization on the Cloud	IT O&M
Interconnection Construction	Safety and Compliance Construction	Enterprise Going Overseas	

Products & Services

Multi-Cloud Resaling

- Foreign Currency Payment
- Account Support
- Recurring Billing
- Hashrate Discount
- Suggestions for Clouds

Consulting

- Business Landing
- Cloud Solution Design
- Data Migration Design
- Network Design
- Multi-Cloud Recommended

Cloud Hosting Services

Managed O&M Service	24/7 Duty Service
AWS L2 Services (PL-ES)	Billing Support
Open-Source Program Hosting Services	Exclusive Service Seat
Special Services	7*24 Hours Technical Support Service

Big-Series O&M Products

BigOps
Integrated O&M Platform

CMDB	Monitoring Alarm
In-depth Monitoring	Resource Display
Automated O&M	Automatic Inspection
Data Report	API Docking

BigITSM
IT Service Management Tool

- Fully Customized
- Service Desk
- SLA Statistics
- ITIL ® 4 Standard

BigDMS
IDB management Tool

- Database Proxy
- Database Management
- SQL Beautification
- Logging Backtrace

BigV
Large-screen Presentation Tool

- Multiple Data Sources
- Layer Layout
- Real-time Data
- Easy to Use

AWS Marketplace products

- CDN Pro Edge Computing Products
- BIG E-Connect SDWAN Products
- BIG SecureLink Zero Trust Endpoint
- BIG HIDS Host Reinforcement
- BIG DMS DDos Defense System
- BIG WAF Web Application Firewall
- BIG Bot-Guard Anti-reptile Products

Technology Stack

Network	Computing	Storage	Database	Middleware	Safety	IOT	Big Data
Container	AI	HPC	Log	O&M	ITSM	Observability	

Base Resource

Local Resources:
virtualization / bare metal / hyper-converged / network equipment

Public Cloud Resources

aws   Google Cloud Platform   Akamai   IBM Cloud

The Trinity "Service + Platform + Solution" Makes the Cloud More Accessible

	On Cloud Consulting	Migration to Cloud	O&M
Cloud Services	Combined with CDNetworks' years of cloud deployment experience, it provides customers with comprehensive and in-depth research and evaluation during the project preparation stage, and promotes rapid business migration to the cloud.	Based on the migration process practiced by a large number of customers, the application system migration, database disaster recovery migration, and storage migration are realized to ensure the stable operation of the business system.	Based on the migration process practiced by a large number of customers, the application system migration, database disaster recovery migration, and storage migration are realized to ensure the stable operation of the business system.

	BigOps (Integrated O&M Platform)	BigITSM (IT Services Management)	BigV (Large-Screen Presentation Tool)
O&M Tooling	BigOps integrates monitoring, alarm, patrol inspection, large screen, operation, etc., realizes automation, standardization, visualization, and intelligent IT operation. Helps enterprises improve operation and maintenance efficiency.	BigITSM follows the ITIL4 standard to help customers transform the complex and changing IT service processes in modern IT into electronic processes to achieve standardization and full monitoring of services.	BigV is a light-weight, large-screen presentation tool that supports direct conversion of any data source into a displayable multi-level chart.

	Enterprise Overseas Solutions	Security Compliance Solutions	Cost Optimization Solution
Cloud Square Case	Help enterprises to quickly launch business overseas. Combined with our own products, we provide global cloud resource deployment, business network connection, traffic distribution and security compliance, and other functions that overseas enterprises actually need.	Consulting services and construction services covering the security life cycle, with the fastest speed, the best service, and the best solution to help enterprises pass the level of protection assessment and achieve business entry into China.	The optimization scheme, comprising of four modules for optimization, one tool for optimization, and one consulting service, is capable of significantly reducing cloud product expenses for enterprises.
